Scala Wall

Design: Anya Sebton

Scala is a complete series of screens, which can be mounted on walls, hung from the ceiling, and is also available as free-standing floor screen, table screen, and hanging room divider.

The design of the sound-absorbent Scala is not only developed for visual reasons, but primarily to contribute to a softer soundscape.

The wall-mounted version of Scala is available in different sizes. Portrait or landscape format, to be hung on hidden wall brackets.

Absorption

Diffusion

Materials and sustainability:

The modules are made from compressed felt fabric with a sound absorbing core.

Concealed metal brackets.

Scala is 100% recyclable, and the fabric is approved by EU Ecolabel.

Equivalent Sound Absorption Area
(m² Sabine)/Unit*

*=Test dimensions, Scala Wall: 5 m² (blue line).

Recommendation from Abstracta!

We recommend having a small gap between joins to keep the panel pattern in line.
